Reclaim Your
Independence with
CORE Services

allwelcares.com

What are Community – Oriented Recovery and Empowerment (CORE) Services?

CORE Services provide an easily-accessible path forward for those with lived experience (a history of mental health and/or substance use issues).

The person-centered skills built through CORE services foster community participation, and empower participants to reclaim their independence.

If you are eligible for HARP, you are eligible to receive CORE services

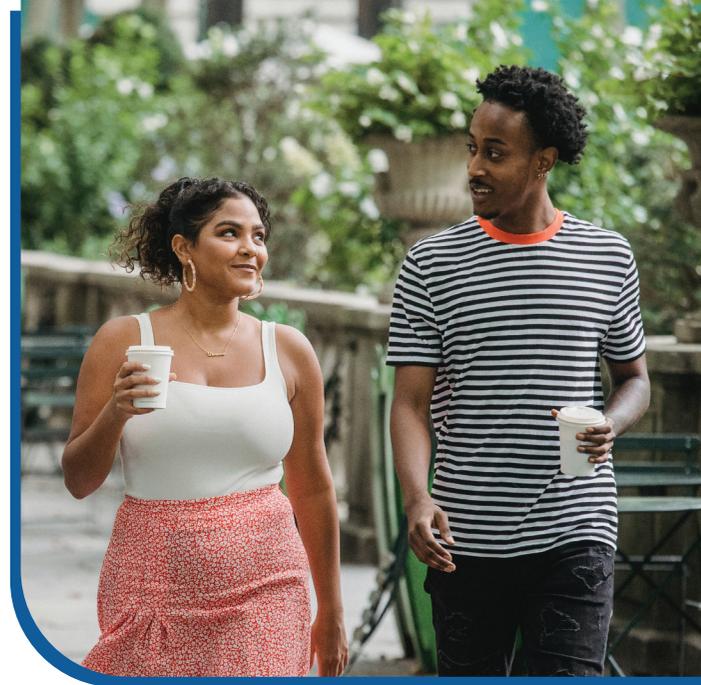

Learn more about CORE Services at:
omh.ny.gov/omhweb/bho/core/

CORE Services Can Help You:

- Find a Job
- Go to School
- Live Independently
- Have Relationships
- Connect With a Peer
- Access Resources
- Cope with Stress
- Engage in Counseling
- ... and more

Care Where You Feel Most Comfortable

Receive help at home, in your community, or virtually via telehealth, rather than a clinic.

No Wrong Doors. Only Open Ones.

The NYS “No Wrong Door” referral pathway tears down barriers to admission, giving easy access to everyone seeking CORE services.

Allwel provides CORE services in your community or via telehealth.
